Report Regarding CMIPP

Following the instructions given by the Director of Higher Education, Assam under the scheme of **CMIPP** commencing from 15th July/2022 to 15th August/2022, coinciding with the completion of the yearlong celebration of "AZADI KA AMRIT MAHOTSAV" 45 numbers of saplings were planted in 300 sq. meter of plot. Student Union Body & the volunteer of NSS were also involved the programme. The saplings were collected from the Kohara Range, Social forestry. To maintain and look after the sapling, 3 persons from the nonteaching staff were appointed by the college authority. The scheme taken by the Government is very appreciative as such plantation may definitely create an eco-friendly environment in the institution as well as the entire natural atmosphere.

Introduction:

Human Rights are rights inherent to all human beings, regardless of race, sex, nationality, ethnicity, language, religion or any other status. Human rights include the right to life and liberty, freedom from slavery and torture, freedom of opinion and expression, the right to work and education and many more. They recognize our freedom to make choices about our lives and develop our potential as human beings. They are about a life free from fear, harassment or discrimination.

Objectives: The basic objectives of celebrating Human Rights is to –

1. To promote and aware the constitutional fundamental rights of our students.
2. To promote respect for all in the absence of discrimination.
3. To promote a peaceful environment for all.
4. To encourage our students to abide by their rights and duties.
5. To develop awareness of how human rights can be translated into social and political reality.

Explanation:

The World Human Rights Day is celebrated in our department on 10th Dec, 2022 to create awareness among the students about their rights and how it becomes essential in day to day life. Because without these rights we cannot develop our personality. Through celebrating this day we discuss about the utility of human rights which became prominent in every part of life. In this regard Jayanta Borah, Ceneram Hazorika views the importance of human rights along with its origin and development. Again Malabika Mohon Borah and Dr. Kakali Borah point out women's discrimination as well as child labour and how it violates human rights and also recommended some suggestions to remove such problems and aware the students towards human rights.

Outcomes of the programmes:

By organizing such type of programme it greatly helps the students to make aware about their own fundamental rights. They know the importance and aware the implementation of human rights that make possible for communities to exist in peace and harmony. It learns the students to be learnt of other culture and religions.

Conclusions:

In conclusion it can be said that human rights are the basic rights which are essential part of every individual. Therefore, our constitution acts as a protector of those basic rights as Fundamental rights.

Introduction:

In today's world, Online Data Management and Web Security become very much essential to deal in data storing and to protect it from corruption or cyber issues. Every work has to be done through online mode like official work in the institution or other fields. And this could be said as the advance technology to use in valued knowledge in this competition world. It is much easier and time saving in comparing to the early data entering process and security so called. So, with the importance of it, this program has been organized to make understand the non-teaching staff about online data management and web security among few colleges who were invited for their better use of online process. Non-teaching members were invited from Chandra Nath Bezbaruah College, Melamora College, Kamarbandha College, and Barpathar College to attain the training as already MoU assigned with these colleges. Hence, a Memorandum of Understanding (MoU) also assigned with computer association namely - All in One Digital Solution, Golaghat, Assam earlier by Marangi Mahavidyalaya and this workshop is done under this computer centre.

Then the resource persons were introduced followed by felicitating with phulam gamusha and Mr. Ram Krishna Chakraborty, Tax Consultant, All in one Digital Solution, Golaghat, Assam (Resource person -1) was asked to start his training. Mr. Chakraborty presents his speech on the importance and scope of online data management and web security theoretically in a nut shell as what a web series can do in today's competitive world, Solid fundamental skill, how to increase productivity and effectively, how can we provide a holistic computer education etc. With the new technologies online works becomes much easier and faster.

Mrs. Anwesha Goswami, Developer, All in one Digital Solution, Golaghat, Assam (Resource person - 2) started her speech by saying that like mathematics, computer learning is same to some extent. 'Practice' is very much important in using an electronic device like computer, exactly as maths. There are lots of formulas and short forms to be kept in mind. By learning those and practicing them regularly, any work of online base could be done easily in a short period of time. Thus, practice plays a vital role in using a computer or smart phones.

Moreover, Mrs. Goswami gave training on why data management is important for office works like traditional Method and it's Cons, use of physical files, time consuming data retrieval, how to recycle lost data, inaccessible data.
