Q.1. Any two of the following questions are to be answered in 100 words each. (10 marks)

1. Define the term 'Public Health'. Discuss its importance in the context of the health of the community.

2. Discuss the role of the health worker in the community. How can the health worker be made effective?

Answer: Public Health is the science and art of preventing disease, prolonging life and promoting health through the organized efforts of society. It is a multidisciplinary field that involves the study of the distribution and determinants of health and disease in a population, and the application of this knowledge to the development of strategies for the prevention and control of disease and the promotion of health.
